# TARIFF BILL HOSIERY RATES ARE RESTORED.

Senate Completes Work on Cotton Schedule.

Contest Precedes Close Vote on Amendments.

Aldrich and Beveridge in an All-Day Debate.

(ASSOCIATED PRESS NIGHT REPORT.)  
WASHINGTON, June 7.—The cotton schedule was completed at the night session of the Senate, which lasted until 12:05 a.m. The Dingley rates were restored on hosiery, making a reduction of about 20 cents a dozen pairs from the rate in the House bill.

Tomorrow the woolen schedule will be taken up.  
The Senate chamber again today was the scene of a lively contest. Senator Aldrich, leading the conservatives, and Senator Beveridge, heading the progressives, did most of the talking. Both Senators were frequently on their feet and there were many sharp conflicts between them.

Beginning the session with a vote on the recommendation of his committee for a duty of 1 cent a square yard and 20 per cent ad valorem on the fabric known as window holland, Senator Aldrich was apparently somewhat discouraged over the prospect of making decided headway with the cotton schedule. His hopes, however, were doomed to disappointment for, only a few moments after the vote, Senator Beveridge took the floor and before he concluded he had opened such a gap that the Rhode Island Senator himself could not resist the opportunity to wait in.

Mr. Beveridge having said he had been inclined to support the protective tariff, the admission led the chairman of the committee to say that the Rhode Island Senator had not shown such inclination by his vote. From that time forward the two Senators engaged in a joint debate much of the time during which Mr. Beveridge contended that many prohibitive tariffs were justified, and he never had favored a prohibitive policy. He predicted that in time the South would become the greatest manufacturer of the finer grades of cotton goods. Replying, Senator Bacon declared that if even such should be true, he would not favor any increase of the custom duties.

CARRIED BY CLOSE VOTE.  
About the middle of the afternoon the Senate reached its second vote, which was on an amendment by Senator Doolittle to strike out of the committee provision relating a duty of 1 cent a square yard on mercerized cloth. The amendment was lost by the unusually close vote of 12 to 10. The narrow margin was, however, due to the absence of Senators rather than to the conversion of the progressives to the Aldrich standard.

It was after this vote that Senator Aldrich found occasion again to challenge the attitude of some of the publisher Senators who were contending for lower duties. He charged them with playing the part of a "pander" for the Democrats, and, speaking of Senator Beveridge, declared he had associated with Democrats as long as he was adopting their ideas. He characterized Mr. Beveridge as the leader of the opposition.

Both Senators Beveridge and Cummins replied, the former asserting that he was standing on the Republican platform, while the latter stated that he had as often been charged with being a Democrat that the charge did not worry him.

A remark by Senator Beveridge that he was "inclined to support the Finance Committee's tariff" with a sarcastic reference by Mr. Aldrich who suggested that the Indiana Senator had not been in the Senate when the tariff had arrived to vote, and added that "as time progresses he may be allowed to vote with the committee."

Insisting that Senators should vote according to their consciences, the Senator from Indiana, looking straight in the eyes of his colleague from Rhode Island, said he greatly regretted that he had seen fit to make such a remark. Meeting a criticism by Mr. Beveridge, Mr. Aldrich said he never had favored a prohibitive tariff and did not intend to. Continuing, he declared that the South was in a race to manufacture the finer grades of cotton goods "as the future is sure to be."

Reviewing the interests of his State in the tariff bill, Senator Bacon declared that he was not in favor of raising of any of the custom duties. Although the mills of his State make some of the more expensive cotton goods, he said the people there were willing to depend upon their nearness to the cotton fields and other conditions to uphold their ability to compete with others.

The credibility of importers as witnesses in regard to tariff duties formed the chief subject of discussion when Senator Doolittle opposed the specific duty of 1 cent a square yard for mercerization.

"BEAT HIM TO IT."  
Mr. Beveridge defended his position regarding the tariff as one upheld by the Republican platform. Mr. Beveridge said he had intended to attack the rate on bacon, lard and some other meat products, but, to use the vernacular, the Senator from Rhode Island "had beat him to it."

Mr. Aldrich declared that the rate on bacon is prohibitive and also said it made no difference whether the rate recommended by the committee originally or the rate finally fixed by the Senate was adopted, as both were prohibitive. He indicated that he had accepted the lower rate in order to put an end to the debate and make progress with schedules. Settling upon this Mr. Beveridge suggested that if Mr. Aldrich would adopt the same tactics in regard to the entire bill he would get a vote.

"I have been verily puzzled to know to whom I should apply for a date for a vote on the bill," quickly retorted Mr. Aldrich. "I have wondered who was the real leader of the opposition."

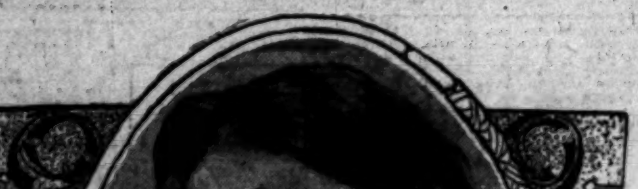

At this point he was interrupted by Mr. Beveridge, who protested against such personal reference, and suggested that, instead of explanations, a Senator who sought information had been met with answers and rebukes. Mr. Aldrich ignored the comment.

Launching into a discussion of the protective system and its relation to the Republican party, Mr. Aldrich, referring to Mr. Beveridge, asked: "By whose vote does he expect to defeat the Republican party? Who is to marshal the forces, and shall he be upon the platform of the Democratic party?"

He referred to the coalition of Democrats and Republicans as an "unholy alliance."

"I have respect for some of the Senators on this side who believe that the rates of the existing tariff

Senator Beveridge, who yesterday exchanged compliments during heated debate with Rhode Island Senator.

are too high, have always believed it, and have always said it."

He referred to those Senators as being consistent, but said a new proposition had been introduced, which had been taken up by the Democratic Senators for the purpose of voting with them.

"Their self-imposed mission of saving the Republican party will not be accomplished in that manner," he said.

Mr. Aldrich asserted that the Republican majority could not be defeated from its views by a combination that said the party was to meet at Lexington.

CLAPP WATCHED THE CLOCK.  
Mr. Clapp, interrupting, insisted that the country was impatient for the passage of the tariff bill and that he had seen the hands of the clock run two hours without a schedule being touched.

Mr. Beveridge denied that the suggestion of the defeat of the Republican party at the hands of a combination had come from him, and he asserted also that no Senator except Mr. Aldrich would dare say that "ours" is a new doctrine.

Predicting Democratic advantage by the division in the Republican party, Senator Bailey declared that the Senate would vote for the tariff bill, and that the Democratic vote could not be interpreted as in favor of protection.

Defending his own actions in relation to the tariff bill, Mr. Doolittle said he was not without company in high official circles, and read a portion of Secretary MacVane's speech delivered Sunday night.

Senator Smith of Michigan interrupted, saying that the Secretary of the Treasury was wanting in Republicanism. Inquired Mr. Doolittle.

"He is in the closest possible relation with the President," he added.

Mr. Smith, "that Benjamin Harrison," replied Mr. Doolittle, "but I decline to hand him the banner under which I have marched."

"Does the Secretary show that the Secretary of the Treasury is not a proper political associate for the President?" inquired Mr. Doolittle.

"I am not a fit associate for the Republican party, as represented in this chamber," Mr. Beveridge replied.

CUMMINS DEFENDS POSITION.  
In defense of his position as a tariff revisionist, Senator Cummins said: "I want the competition of the United States, but I want the competition of the world's producers. The producer is as much entitled to competition as the manufacturer is entitled to protection."

Referring to a statement by Mr. Aldrich concerning Senators who had been holding the Committee on Finance, Mr. Cummins declared that there was no man in the Senate who could put down a tariff as the Republican party.

Mr. Aldrich disavowed any intention to reflect upon the Republicanism of the Senate from Iowa.

Senator Doolittle's amendment striking out of the duty of one cent a square yard on mercerized goods was lost by a vote of 22 to 23. Eleven Republicans voted with the Democrats for the amendment, Senator Jones of Washington, who has almost uniformly voted to uphold the Committee on Finance, voting with Messrs. Beveridge, Briarley, Brown, Burkett, Clapp, Cummins, Doolittle, Gamble, La Follette and Nelson. One Democrat, Mr. McClellan, voted with the Republican majority.

When Senator Doolittle offered an amendment moving rubber goods from the cotton schedule, under which all rubber goods having any cotton in them, such as linings, are required to pay a double duty of 50 per cent, ad valorem and 10 cents a pound, Senator Aldrich announced that he would accept it for the committee, and it was adopted by the Senate without division.

DOLLIVER ON TAP.  
At this point he was interrupted by Mr. Doolittle, who declared that their values were as lining, are required to pay a double duty of 50 per cent, ad valorem and 10 cents a pound, Senator Aldrich announced that he would accept it for the committee, and it was adopted by the Senate without division.

Mr. Stoot offered in evidence several samples of tapestry and figured upholstery goods, showing that their values were a great deal higher than the tapestry which Mr. Doolittle exhibited. The latter said his was the poorest grade of tapestry which was valued at from 50 cents to \$1.

Mr. Aldrich said it would be impossible to provide a separate clause for

# WESTERN TRIP IN SEPTEMBER.

President to Start for California Late in Year.

Reach San Francisco During Portola Celebration.

Mrs. Taft's Health Is Said to Be Improving.

(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, June 7.—(Exclusive Dispatch.) President Taft told Senator Flint today that on account of his decision to omit the Alaska part of his trip, he would not start for California until late in September, probably, and that he expected to be in San Francisco during the Portola celebration and in Los Angeles soon after that.

Mrs. Taft's health has something to do with his decision also, as she is recovering from her condition of nervous prostration more slowly than had been hoped for. Should Mrs. Taft not get well enough to travel, the President might abandon his western trip entirely, but at present it is understood that she is improving, and that a rest at Beverly is expected to restore her health.

Delay in starting for the West probably will add to, rather than detract from, interest in the trip, as there will be more time to plan for the trip, and the President can visit with him to perfect plans for his entertainment.

WHEN BOOZE IS WHISKY.  
EXPERT TELLS PRESIDENT.  
(ASSOCIATED PRESS NIGHT REPORT.)  
WASHINGTON, June 7.—Lloyd W. Bowers, Solicitor-General of the United States, today submitted to President Taft his opinion as to what the term "whisky" means in law. Mr. Bowers holds that the word does not consider that added coloring or favoring matter can make whisky out of what otherwise is not whisky. Whisky is regarded generally and naturally as having a flavor and properties of its own.

"On the other hand," he says, "the mere addition of harmless coloring or favoring matter to what is not whisky does not destroy its whisky character unless such addition unduly dilutes the essential properties of the whisky."

A mixture of whisky with alcohol or neutral spirits is entitled to the name of whisky, and the law provides that the mixture retains a substantial amount of by-products in proportion to the mixture. Bowers says the addition of alcohol to whisky is not the introduction of a foreign substance, but is merely an enlargement of the proportion of one proper constituent. It is merely a form of dilution, just as the addition of water is.

Present Taft authorized the opinion of Mr. Bowers to be made public, but announced no opinion himself, because it was desired to hear further testimony before taking any action known as straight whisky distillers.

ASKS AID.  
IN HONDURAN CLAIM.  
(ASSOCIATED PRESS DAY REPORT.)  
WASHINGTON, June 7.—The State Department has been asked by Alvin M. Moisan, a citizen of Illinois, for aid in his claim for \$23,000 against the government of Honduras.

Secretary of State Knox has taken no action in the matter.

According to Moisan, he was granted a bank loan in Honduras by the Executive. Although the laws of the republic provide that Congress must approve of any such loan, Moisan claims that the President has been complicit in the transaction.

Moisan is alleged to have furnished the Honduran government with a large sum of money at the time of the last revolution in that country.

RUSHING LAGUNA DAM JOB.  
One Hundred and Eighty Men at Work on Yuma Irrigation Project During May.

(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, June 7.—(Exclusive Dispatch.) During May 180 men were employed at the Laguna Dam, Yuma irrigation project, and the work on the Arizona side of the river, excavating for the canal and protecting the bank below the mouth of the Colorado. The work was also continued on the California side of the river, and on May 20 approximately 70,000 second feet of water passed over the dam. No damage whatever was done to the structure, and work on canals was carried on rapidly.

WASHINGTON, June 7.—Ambassador Takihira, who is expected to arrive here today, will be received by the President and will deliver the baccalaureate address at the graduation exercises of the University of Illinois at Champaign. He will leave Washington for the West on June 10.

President Sees Again.  
WASHINGTON, June 7.—President Taft added still another to his string of golf victories this afternoon when he defeated Mr. Edwards, his military aide and Senator Bourne on the Chevy Chase course. The score in the match was 18 to 17 in favor of the President. He will leave Washington for the West on June 10.

Col. Maus Promoted.  
WASHINGTON, June 7.—Brig.-Gen. Richard T. Yostman, recently promoted from colonel to brigadier general, has been placed on the retired list owing to disability incurred in the line of duty. # WATERSPOUTS IN WYOMING.

Big Government Dam Threatened With Destruction by Flood.

(ASSOCIATED PRESS NIGHT REPORT.)  
CHEYENNE (Wyo.) June 7.—More than \$50,000 worth of property has been damaged and the big Pathfinder irrigation dam, a government project, is threatened with destruction as the result of floods and waterspouts in Wyoming today.

The plant of the Carbon Timber Company at Douglas is under water and the saw mills and tracks have been washed out. A landslide at Edson cut on the Union Pacific has delayed traffic. At Uva, a waterspout washed out a bridge on the Colorado and Southern Railway, and several pieces of track. The La Pierre dam has been damaged to the extent of \$25,000.

DIPLOMATIC.  
BACON NAMED TO PARIS EMBASSY.  
FORMER SECRETARY OF STATE TO SUCCEED WHITE.

Private Dispatches from Washington Authority for Statement He Declined Post, But Accepted When He Learned Present Ambassador Was Slated for Retirement.

(ASSOCIATED PRESS NIGHT REPORT.)  
PARIS, June 7.—Private advices from Washington state that Robert Bacon, former Secretary of State, has accepted the ambassadorship to France, and will succeed Henry White at the end of the year.

According to these advices, Mr. Bacon, when first offered the post, declined, preferring that Mr. White should be retained, but finding that President Taft had resolved, in any event, to replace Ambassador White, he finally accepted.

Runners of Mr. White's retirement, which have been current here for months, cause genuine regret, especially in official circles, where he is especially persons, grats, and among the members of the American colony, where it was felt that his experience would count for much in the difficult tariff negotiations between the countries, which are considered inevitable after the passage of the new American tariff bill.

"PAT" CROWE, MANAGER.  
His Sanatorium for Drug and Drink Victims—Backed by "Jim" Patten and Cyrus McCormick.

(BY DIRECT WIRE TO THE TIMES.)  
CHICAGO, June 7.—(Exclusive Dispatch.) "Pat" Crowe, of Cudahy kidnapping fame, is being backed by James Patten, Cyrus H. McCormick and other wealthy men of Chicago in a sanatorium, where patients addicted to the drink and drug habit will be treated. The hotel at Highwood on the North Shore has been purchased and remodeled into a sanatorium.

Crowe is named as manager of the new project. Advertisements have been inserted in the daily papers asking for "men of ability who have been handicapped by drink or drugs to prove and then recommend our remedies."

The Rev. B. M. Brown, pastor of the Lake Forest Presbyterian Church, is assisting Crowe in the sanatorium. "We have transformed the old hotel into a twenty-room sanatorium with six acres of ground," said the Rev. Mr. Brown. "We can furnish plenty of work for the patients, and we hope to make the sanatorium practically self-supporting. We have started out with four or five patients, and they are perfectly content to do without liquor and drugs, and soon will be turned out cured."

Among the other "silent partners" in the undertaking are: Ralph Olinsted, private secretary to Mr. Patten; the Rev. J. H. W. Boyle, pastor of the Lake Forest Presbyterian Church; Dr. E. L. Eaton, pastor of Emmanuel Methodist Church, Evanston, and the Rev. C. C. Walker, pastor of the Highwood Methodist Church, Evanston.

ON ITS OWN HOOK.  
NEW YORK, June 7.—Thomas A. Ennis of the failed brokerage firm of Ennis & Stephens testified today before a United States Commissioner in the bankruptcy proceedings against the firm, that the firm speculated for its own benefit through three private accounts, and that purchases for customers were made on the Consolidated Exchange for the customers' accounts and then sold to the firm's private account and purchased on the New York Stock Exchange.

MOVING PICTURES AND GLASS OF  
BEER THE INCENTIVE.

Hard Working Youth Reads of Ap-  
proaching Wedding of St. Louisian  
and Mairies to Millions, in Dis-  
tressed With Lot, Tries to Get \$2000  
from Mother of Groom by Threats.

[BY DIRECT WIRE TO THE TIMES.]  
ST. LOUIS, June 7.—[Exclusive Dis-  
patch.] A moving-picture plot, a new-  
paper account of the approaching  
wedding of an heiress to millions and  
his first glass of beer make up a com-  
bination of circumstances as a result  
of which Jesse J. Felchlin, a shoe  
worker, aged 19, was held today for  
the federal grand jury.

Moved by the pitiful story of hard  
work and poverty made in a signed  
statement by Felchlin, in which he  
confessed that he wrote a letter to  
Mrs. Virginia H. Wright of No. 33  
Westmoreland place, Assistant Fed-  
eral District Attorney Daues said  
this evening that he would investi-  
gate, and if the boy's statements  
proved true, he would move to reduce  
the \$1000 under which he was bound  
over for the grand jury to \$500.

Felchlin was arrested at the post-  
office Sunday morning, when he called  
for money to mail a letter to "Mr. Clar-  
ence Tubbs," under which name he  
confessed he had written to Mrs.  
Wright demanding \$2000, refusal of  
which would cost the life of one dear-  
est to her.

Felchlin said his father drank heavily  
and abused his mother, his two  
brothers did not work regularly, he  
had supported the family most of the  
time.

He saw a successful black-hand plot  
in a moving-picture show and, read-  
ing an account of the approaching  
wedding of Mrs. Wright's son, a  
Pittsburgh heiress, which took place  
tonight, at which millions of dollars  
were represented, he became desperate  
over his hopeless poverty, went out  
and wrote the threatening letter and  
mailed it.

Amaral is alleged to have murdered  
Antonia De Lena, a wealthy citizen, as  
a result of a complication with the  
latter's wife. De Lena was much the  
older and begged the young man to  
give up his attentions to his wife.  
Amaral refused. He followed the hus-  
band to the Rue Poudre, the leading  
hotel of the place, and shot him dead.  
The shock killed the young wife, who  
was in a delicate condition.

Amaral, through political influence  
it is alleged, made his escape to  
America. For three years he hid his  
identity under the name of Duarte.

JOSE LOPEZ AND GIL ZUNIGA, the  
two renegade Indians who attacked  
and fatally wounded an Indian police-  
man on the Yuma reservation, some  
time ago, may have to answer to a  
charge of murder, as their victim died  
yesterday in a Yuma hospital. "The  
smallest will be heard before the  
Federal grand jury," said Assistant  
United States District Attorney Wil-  
son, who is in charge of the case.

The two defendants are in the local  
County Jail, having been brought  
here from Yuma, last week, by  
Deputy United States Marshal Dur-  
lin. The stabbing affray occurred as  
the two "bootleggers" were attempt-  
ing to get away from the policeman  
when he placed them under arrest on  
suspicion of introducing liquor on  
the reservation.

SALEM (O.) June 7.—Mrs. Elizabeth  
Sharp, a prominent society woman and  
wife of G. V. Sharp, a politician and  
manufacturer, killed her twelve-year-  
old son Harold last night and then  
herself with a revolver. The tragedy  
occurred when the two had retired  
after spending the evening together  
playing the piano and singing.

The motive for the tragedy is be-  
lieved to be the woman's sorrow over  
the incurable nature of her son's ma-  
lady. He had been mentally deficient  
from birth.

Balloon Indiana in Alabama Traveling Fast.

Question of Alighting to Be Settled Later.

Mountaineers Shoot at Big Gas Bags on High.

(BY DIRECT WIRE TO THE TIMES.)

INDIANAPOLIS (Ind.) June 7.—(Exclusive Dispatch.) The balloon Indiana had not been reported as having landed up to 1 o'clock this (Tuesday) morning. The last reported sailing near Decatur, Ala., at 4:30 o'clock Monday afternoon and had then broken the endurance record of forty-four hours, made by La. Blanc in the balloon Isle de France from St. Louis in 1897, as she had done nothing on this trip to disqualify herself.

Since the balloon started in the national distance race of the Aero Club of America, from this city on Saturday, two reports have been received from it. One was that it had touched the earth in Tennessee and had taken on water and proceeded toward the south. If this be true, the balloon is disqualified under the rules of the International Aeronautic Federation.

A second dispatch, signed by the pilot, Carl Fisher, and his aide, G. L. Bumbagh, has stated that they dropped down near enough to earth to let down a line and draw up a bucket of water.

Under these conditions the Indiana has not been disqualified.

STILL GOING.

It is not possible to state at this time that the Indiana has broken the distance record of 55 miles, for it was traveling due south and would come to the Gulf Coast almost one hundred miles short of the record established by the German balloon Pommern, in the international race nearly two years ago for the James Gordon Bennett cup, which started from St. Louis and landed at Astoria, Ore., N. J.

The last of the balloons entered in the national distance race from which a definite landing report has been received, is the St. Louis III, which dropped at Kalamazoo, Mich., having covered 111 miles. A. B. Lambert was pilot, and H. E. Honeywell aide.

Other balloons and their pilots are as follows:

The New York, A. Holland Forbes, pilot, landed at Corinth, Miss., covering 58 miles in 24 hours and 10 minutes.

The University City of St. Louis, traveled 114 miles, landing at Blanche, Tenn.; time, 25 hours and 24 minutes.

The Hooper, Capt. Baldwin, pilot, traveled 145 miles, landing at Green Brier, Tenn.

The Cleveland landed at Columbus, Ind., 40 miles; 4 hours and 10 minutes.

The Chicago, with C. A. Coey and John Bennett, entered in the Indiana race, at Scottville, Tenn.

The Indianapolis, with Dr. Goethe Link and R. J. Irwin, in the Indiana race, at Westmoreland, Tenn.

The Ohio, with Dr. H. W. Thompson and J. Blake, in the Indiana race, at Nashville, Ind.

MOUNTAINEERS SHOOT.

The Indianapolis landed within two miles of Westmoreland. The aeronauts were R. J. Irwin and Dr. Goethe Link. Dr. Link said:

"We were forced to fly over two miles high over most of Kentucky, as many people, not knowing what the balloon was, repeatedly shot at it, and bullets whizzed around our ears."

The New York, which landed near Corinth, Miss., was also shot at Sunday night while passing over Morgan county, Ala.

Describing the shooting, Mr. Harman said:

"Expecting to land in the wilds of Canada, we were loaded with provisions, ammunition, heavy shoes and clothing and canned goods. In an endeavor to find another air current to carry us higher, we decided to throw away about 200 pounds of this stuff. Not wishing that it should be lost, we descended to within 800 feet of the earth, and then, as it was raining, it would be found near houses and villages."

"When directly over a very small village, eighty miles north of Birmingham, a man with a rifle cried:

"Come down here—come down here—"

"We continued our course and he fired three times, one of the bullets striking through the basket. Officers have been sent out from Corinth in an endeavor to arrest the man."

## BASEBALL.

## MCCAY IS SOLD BY BILL REIDY.

## GOES TO MANAGE MOBILE OF SOUTHERN LEAGUE.

Manager Making Clean Sweep of Old-Timers and Hopes to Patch Up Winning Team—Dickers for New Men—Sole is Mutually Agreeable to All Concerned.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, June 7.—(Exclusive Dispatch.) Bernie McCay, who was made head coach of the Comstock club at the beginning of the season, has been sold to the Mobile club, where he played ball last year, and will at once leave for the South.

McCay's wife has not been in the best of health in San Francisco, and is anxious to get away from the Pacific Coast. In addition, while McCay has been hitting the ball well, his holding has not been up to snuff, and the Comstock management, with the continued loss of games, has decided upon changes.

It was expected that Benson, one of the Mobile infielders, would come to Oakland by way of a trade, but the wires were mixed, and it was turned out that it was a sale, pure and simple.

Manager Bill Reidy says that he is desirous for second baseman, but that so far he is not able to announce any names. In the meantime, Chris- tian, one of the pitchers, will hold down second.

McCay is expected to manage the Southern League team.

## FORDS LEADING SEATTLE RACE.

Mud-Covered Contestants Reach St. Louis.

Race to Pacific Shores Now on in Earnest.

Italia Changes Drivers and Takes Up Long Trail.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, June 7.—(Exclusive Dispatch.) After a twenty-three hour battle with muddy roads between Chicago and St. Louis, two little Ford runabouts, leaders in the ocean to ocean automobile race for the \$5000 trophy offered by M. Robert Guggenheim, arrived at the Jefferson Hotel this morning. The drivers were covered with mud from head to foot.

The big 15-horse-power Acme car and the 50-horse-power Shawmut car, which left Chicago at 1 p.m. yesterday, arrived here this afternoon. J. H. Gerrier of New York, who is in charge of the race for the Automobile Club of America, left the Acme car at McLean, Ill., and took a train for St. Louis. He arrived here just as the two Fords were checking in at the Jefferson Hotel.

Mr. Gerrier said the roads between Chicago and St. Louis were in a frightful condition and that the drivers had to pass much time dragging the automobiles out of the mud holes. The Acme stuck in a mud hole near McLean just before midnight and it took the driver more than an hour to get it out.

The Italia car, the only European machine in the race, left Chicago at 3 p.m. One of its drivers was stricken with diphtheria in Chicago. Under the rules of the contest substitution of drivers is not permitted. But Mr. Guggenheim telegraphed his consent for another driver to be selected to help him.

The trip from New York to St. Louis has been made without any serious mishaps to any of the contesting machines. The Acme car tumbled over a fifteen-foot embankment near St. Louis. It was pulled out after three hours' work and continued the journey.

The Fords restarted at 7 o'clock and the Acme car at 9 tonight, for Kansas City. The Italia car arrived here about 10 o'clock midnight.

## HEAVEN'S WRATH SHE'S FEARING.

## PROSECUTOR SKEPTICAL AS TO WOMAN'S GOOD FAITH.

**Thinks Real Reason for Wanting Complaint Against Alleged Black Gambler Quashed Is That She Has Secured the Return of Her Money. Request Firmly Denied.**

Because, as she declared, she feared divine wrath would be visited upon her for swearing to a warrant for the arrest of E. S. Clark, charged with the theft of \$200 from her under false pretenses, Mrs. Minnie Stephens of New York street yesterday afternoon begged Deputy District Attorney McCormick to discontinue the complaint.

When the attorney heard the grounds on which Mrs. Stephens based her request, and became convinced that an attempt had been made to use the prosecutor's office as a collection agency, he informed the woman that she would have to take her chance of being struck by lightning, and that the complaint would stand. Clark has disappeared, and the police are seeking him. He is said to be a stock gambler. He lived at the Stephens home. When he arrived there last Thursday night he seemed excited and stated that if he could quickly secure ready money he would make a "killing" in stocks. Mrs. Stephens said she had \$200 in the First National Bank. Clark, she declared, asked for a blank check and made out a check for \$100. This, it is alleged, he gave to Mrs. Stephens as security for the \$200 check which she gave him.

When Clark did not appear the next day, Mrs. Stephens became alarmed and on going to the bank, found that Clark had cashed her check but that his paper was worthless. She rushed to the prosecutor's office and swore to a complaint.

McCormick stated yesterday that it is his belief that Mrs. Stephens got in communication with Clark and, using the warrant as an argument, secured the return of her money, and then attempted to have the complaint quashed. The defendant is believed to have gone North.

At the evening meeting in Immanuel Church, an address of welcome will be delivered by Dr. William Horan Day, introducing Dr. Clark. There will be several other brief addresses, bearing upon the state of the movement, which will meet in Pasadena the latter part of this month.

## CALIFORNIA LEADING. STATE'S ROADS ARE FAR-FAMED.

## SOUTHERN ENGINEER HERE TO STUDY OILING PROCESS.

**Says Georgia Is in Line for Good Thoroughfares—Healthy Public Sentiment Created Through Automobiles—Atlanta Growing at Amazing Rate.**

In order to create a healthy public sentiment for good roads, Georgia has been boosting automobiles, and the plan has succeeded so well, according to D. Leo Wardrop, of Atlanta, a civil engineer registered at the Lankershim, that the people of his State are eager to learn the latest wrinkle in road building and are looking to California for pointers. Mr. Wardrop has come here for the express purpose of studying oiled road building.

"Georgia is very prosperous now," he said, yesterday, "and the state is really true of Atlanta, which is growing at an amazing rate. Standing on the porch of my home here, I can count more than a hundred houses that have been erected during the last six months. Buildings of every description are going up everywhere. "With conditions so gratifying the people are giving a good deal of attention to road building. The automobile is recognized as the greatest promoter of good roads. Where there are many machines, the highway will be found in good condition.

"The people of Georgia understand this and are now about as many cars in Georgia as in any other State of like population. The number of them to be seen on our roads is astonishing. "But it has also been found that the old-fashioned macadam road will not stand the wear. There are no rutts, but the road used is so friable that it is ground to dust by the heavy machines, and this dust is awfully disagreeable.

"That is why we are looking to California for suggestions in oiled road building. The oiled roads of this State are known for their excellence all over the country, and I came here to study the various methods used in making them.

"No, I am not delegated by any county or city, but I am interested in the work of a civil engineer. Many of the towns of Georgia are improving their streets, and if it is found feasible they will use oil.

"Mr. Wardrop denies that there is any likelihood of breaking up the "Solid South" politically. "Senator McKern of Louisiana, speaking of the United States Senate, has advised the South to forget its old doctrine of tariff for revenue only," he was told. "Is there any perceptible change in the politics of Georgia?"

"No," was the reply. "I don't believe that there is any change in the politics of the South. It may be that the rich men will go over to the Republican party, just as did the sugar planters in Louisiana and Southeastern Texas when the Democrats took the bounty on the tariff, but the mass of the people will stay as they are. Senator Eason of Georgia tried to have a duty put on lumber, but my impression is he failed. There is but very little of the old long leaf yellow pine left in my State. The virgin forests are all gone, and Georgia could get along without the tariff very nicely. At any rate, nothing has been done with the tariff as yet."

### Gives Added Assurance to Recently Made by Cooper

The universal commendation accorded the Cooper medicine, not only by residents of Los Angeles and vicinity, but by persons living at a remote distance as well, stamps them as being the most effective proprietary preparations brought to public notice in recent years. It also lends assurance to the claims made by L. T. Cooper during his visit in this city, that the Cooper medicine will restore the human system to normal condition in a remarkably short time, no matter how obstinate the case may have become.

As further proof of the genuineness of Cooper's claims the following communication from Joseph Jones, living at 219 East Fountain street, Colorado Springs, Colo., will be of interest. Mr. Jones says:

"For two years I suffered from stomach and bowel trouble. I had lost my appetite, and the little I did eat

### ASSERTS NURSE FIRED HOUSE.

#### YOUNG WOMAN IS ACCUSED OF ARSON AND BURGLARY.

Altadena Man Swears to Warrants. Friends Say She Has Acted Peculiarly of Late and It Is Believed Parents Will Ask for Investigation as to Her Sanity.

PARADISE, June 7.—Miss E. Pearl Dubbs, the trained nurse who, in a published statement, claimed to have figured as a heroine in the garb of a burglar, who caused the death of Mrs. H. B. Kelsey a week ago, was taken to the County Jail yesterday afternoon, charged with arson and burglary, on warrants issued by J. L. Clark. He asserts that Miss Dubbs entered his residence on Lincoln avenue in Altadena, took money, jewelry and other effects that pleased her fancy, then set fire to the dwelling in an endeavor to shield the theft.

Miss Dubbs was arraigned before Justice McDonald yesterday. She entered a plea of not guilty, and her preliminary examination was set for next Monday afternoon at 2:30 o'clock. She was unable to secure bail in the sum of \$1000, which was demanded in each case.

About 6 o'clock Sunday afternoon the 12-year-old adopted daughter of Mr. and Mrs. Clark, while crossing the field between the home of her foster parents and the dwelling of a fire ranger, Stanchfield, saw smoke coming from the house of her foster parents. The young girl, who was alone, was unable to enter the house, and she fled in a panic.

At about the same time a brush fire started in a dry field a short distance from the Clark home. Neighbors were able to stop the fire, and it was extinguished. The fire was caused by the young girl, who was alone, and she fled in a panic.

Constable Newell was summoned by telephone to the bungalow of the Los Angeles Club, which is situated at the corner of the California and Broadway streets. He found the bungalow in a state of confusion, and he found the young girl, who was alone, and she fled in a panic.

Upon their return from Los Angeles, Mr. and Mrs. Clark carefully investigated their home, discovering that \$500 in money, which had been kept in an old jar, some jewelry, a number of photographs and other articles were missing. Constable Newell found the watch beneath a pile of papers in a box in the room of the Dubbs home. Upon the arrival of the officers, Miss Dubbs confessed herself.

Miss Dubbs is of the opinion that the rings and other jewelry were tossed into it. The girl was once arrested and locked in the City Jail. She admitted that she had been at the Clark home, and she had been in the room of the Dubbs home. She admitted that she had been in the room of the Dubbs home.

By those who know Miss Dubbs it is believed that she has been suffering from a mental ailment, and it is believed that her parents will ask for an investigation as to her sanity.

TO STRENGTHEN FACULTY. President Scherer of Throop Polytechnic Institute, who returned to Pasadena last night from his trip abroad, says the reason he came back a month ahead of his schedule is that he completed his work abroad and desired to reach Pasadena in time for the commencement exercises.

The principal object of my trip, said Dr. Scherer, "was to gain information from the technical schools, and to see the latest in the art of the present plans for greater thoroughness. #### ASSERTS NURSE FIRED HOUSE.

Altadena Man Swears to Warrants. Friends Say She Has Acted Peculiarly of Late and It Is Believed Parents Will Ask for Investigation as to Her Sanity.

PARADISE, June 7.—Miss E. Pearl Dubbs, the trained nurse who, in a published statement, claimed to have figured as a heroine in the garb of a burglar, who caused the death of Mrs. H. B. Kelsey a week ago, was taken to the County Jail yesterday afternoon, charged with arson and burglary, on warrants issued by J. L. Clark. He asserts that Miss Dubbs entered his residence on Lincoln avenue in Altadena, took money, jewelry and other effects that pleased her fancy, then set fire to the dwelling in an endeavor to shield the theft.

Miss Dubbs was arraigned before Justice McDonald yesterday. She entered a plea of not guilty, and her preliminary examination was set for next Monday afternoon at 2:30 o'clock. She was unable to secure bail in the sum of \$1000, which was demanded in each case.

About 6 o'clock Sunday afternoon the 12-year-old adopted daughter of Mr. and Mrs. Clark, while crossing the field between the home of her foster parents and the dwelling of a fire ranger, Stanchfield, saw smoke coming from the house of her foster parents. The young girl, who was alone, was unable to enter the house, and she fled in a panic.

At about the same time a brush fire started in a dry field a short distance from the Clark home. Neighbors were able to stop the fire, and it was extinguished. The fire was caused by the young girl, who was alone, and she fled in a panic.

Constable Newell was summoned by telephone to the bungalow of the Los Angeles Club, which is situated at the corner of the California and Broadway streets. He found the bungalow in a state of confusion, and he found the young girl, who was alone, and she fled in a panic.

Upon their return from Los Angeles, Mr. and Mrs. Clark carefully investigated their home, discovering that \$500 in money, which had been kept in an old jar, some jewelry, a number of photographs and other articles were missing. Constable Newell found the watch beneath a pile of papers in a box in the room of the Dubbs home. Upon the arrival of the officers, Miss Dubbs confessed herself.

Miss Dubbs is of the opinion that the rings and other jewelry were tossed into it. The girl was once arrested and locked in the City Jail. She admitted that she had been at the Clark home, and she had been in the room of the Dubbs home. She admitted that she had been in the room of the Dubbs home.

#### WOMAN IN RAGE AT NIGHT SORRY IN COLD GRAY DAWN.

Raises Disturbance When Denied Sight of Sick Husband at Long Beach, Is Arrested, Calms Down and Feels Ashamed—Trouble Arises Over Property.

LONG BEACH, June 7.—Being denied sight of her sick husband, last night, Mrs. James Riley, the young wife of Judge James Riley of Tombstone, Ariz., who is critically ill at his apartment in the Louise, No. 305 West Second street, created a disturbance which ended in the arrest of the irate woman.

Judge Riley, who is wealthy, has been several months a sufferer from heart trouble. He is 70 years old, and has been married seventeen years, but, according to reports, their marital relations have not been always pleasant. Since the Judge's serious illness, many of the yearly visitors to the home, and for two months Mrs. Riley has lived at No. 333 Chestnut avenue, which Riley purchased last night, while the invalid was talking with his man nurse, Martin Connelly, a friend from Los Angeles. Mrs. Riley appeared at the apartment and demanded to see her husband. The nurse refused, and she became angry.

The disturbance which followed aroused the household. An effort to put Mrs. Riley out failed, as she fled to one of the rooms and barricaded the door, declaring she would not leave until she had an interview with her husband. The landlady called upon Justice Hart, who issued a warrant against "Jane Doe" Riley on a charge of disturbing the peace. Deputy Constables Cane and Fisher undertook the arrest. She received them quietly enough, but when the warrant was read to her, she became angry and tore into bits, asserting that "she was Mrs. James Riley and not 'Jane Doe'." She refused to go with the constables, and she was taken to the police station.

The excitement had a bad effect on the sick man, and at last night his life was despaired of, but he is reported today as somewhat improved. Judge Riley claims to have paid \$500 to his wife and says his troubles have grown out of discussions over the disposition of the estate of his father, who was a little better and says an attorney told her she had a right to see her husband.

A petition signed by 701 voters of Long Beach was presented to the City Council this morning, asking it to call an election to submit to the people a change in the city charter, under the provisions of the initiative clause of the city charter. The City Clerk was given instructions to get sufficient signatures to verify the petition by Wednesday evening, when the Council will meet to pass an election ordinance. The charter change is a 30 percent petition, or 30 signatures.

They were seen to board a car for Los Angeles where they sold their plunder.

The City Council this morning rescinded all privileges and proceedings relative to a wharf franchise granted to the city by the city council. The council held that the permit system is not a form of government, but a means of raising revenue. Mrs. Talbot, who was the owner of the wharf, was seen to board a car for Los Angeles where they sold their plunder.

WHITTIER, June 7.—Commencement week has arrived at Whittier College, the baccalaureate sermon being preached yesterday, at Friends Church, by Rev. H. E. McDrew, pastor of First Friends Church, Los Angeles. Tonight the senior class programme was given before an audience which taxed the capacity of the auditorium. The feature was an original farce, replete with "joshes," in which neither the student body nor the faculty were spared. It was entitled "Whittier University Reunion Twenty Years After." Among those taking part were Misses Mary Emma Smith, Blanche O'Brien, George Bell, Will Felt, Will Blount, Harold Connelley, Golden Lane, Flory Greene, Russell, Harrison, Herbert, and Graves. EDDIE EXPLODES BOMB. No Commission Can Refuse Permit to Pursue Lawful Business, Declares City Prosecutor. When the Police Commission was preparing a permit to deny Mrs. Annie, fortune teller, at last night's meeting, Guy Eddie, City Prosecutor, exploded a bomb. He reported that the decision of Judge Wilbur in the case of Mrs. Talbot, prosecuted for maintaining a mental sanatorium without a permit, was that the law gave no board or commission the power to refuse a permit to pursue a lawful business. As the law has not classified mediums with auctioneers, saloons and other dangerous businesses, he held the commission must grant the license.

A change against the applicant was that she received \$5 in payment for a 30-cent fee and refused to return the change. "But you have a right to revoke any such permit," Eddie added. "If we revoke a permit tonight and application for a new one is made tomorrow must we grant it?" asked Commissioner Graham.
